

Normal Import and No CO : use PDK2017 / use 10 digit TC

Import from other county or without CO form. Select your correct K1 type.

1. Declaration Header

The screenshot shows the 'Declaration Header' form with a 'LookUp Table' window overlaid. The 'LookUp Table' window displays a list of codes and descriptions for import types. The 'K1 Type' field in the background form is highlighted with a red box and has a red arrow pointing to the '0001' entry in the table.

Code	Description
0001	NORMAL IMPORT (TO PCA)
0002	IMPORT WITH EXEMPTION
0003	PROVISIONAL (DUTY PAID)
0004	IMPORT UNDER BG (PROVISIONAL)
0005	IMPORT FROM FIZ
0006	IMPORT UNDERBG (FINAL)
0007	TEMPORARY IMPORT
0008	BARTER TRADE
0009	RUBBER(REMILING/REPROCESSING)
0010	IMPORT FROM FCZ

2. Declaration Item

The screenshot shows the 'Declaration Item' form. A red oval highlights the 'Country of Origin' field, which is set to 'NZ'. A red arrow points from this oval to another red oval that highlights the 'HS Code' field. A second red oval highlights the 'Amount' field, which is set to '0.00'. A red arrow points from this oval to a text box at the bottom of the form that says 'enter your 10 digit tariff code here. Must refer to PDK2017'.

select your Country of Origin

enter your 10 digit tariff code here. Must refer to PDK2017
